

How to search for a “Qualifying” CARES Case.

Start by clicking “eCares” in the top menu bar.

The screenshot shows a search form with a filter dropdown set to 'Non-Traumatic CARES Cases'. Below the filter is a 'Search' button. The form contains several input fields: 'Date of Arrest' (with a dropdown set to 'All' and 'From'/'Through' date pickers), 'Date of Birth' (with a dropdown set to 'All' and a 'From' date picker), 'Incident #' (highlighted with an orange circle), 'Booklet ID', 'Incident Address', 'Incident Zip Code', 'Patient First Name', 'Patient Last Name', 'Patient's Age (in years)' (with a dropdown), '# of AED Shocks', and '# of Manual Shocks'. Each field has a help icon (a question mark in a blue square) to its left.

Enter the provided Incident # and then click “search”.

The screenshot shows the search results page. At the top, it says 'Records found: 0' with an orange arrow pointing to it. Below this is a link that says 'Click column headers to sort'. A table with five columns is shown: 'Incident Number', 'Booklet ID', 'EMS Response Number', 'Date of Arrest', and 'Patient'. Below the table, 'Records found: 0' is circled in orange.

Incident Number	Booklet ID	EMS Response Number	Date of Arrest	Patient
